

Two Days Local Bonspiel Next Week

**Curlers Will Spend Enjoyable
Time Competing for Trophies
Wednesday and Thursday**

'Tis true enough, there are some who would rather curl than eat, and these devotees of the rosin game are to be admired for their enthusiasm for what is undoubtedly the finest winter pastime in Canada. Accordingly no curling club considers itself such unless it has an annual bonspiel, and Coleman's annual event will take place next week, when both good and bad will join in trying to lift the various cups and trophies which are the spoils of the contests.

Already this season more than ordinary interest has been created in the contests for the Morrison and McMillen trophies, which will certainly be increased in the coming bonspiel. Jock Bell's and Roughhead's rinks have occupied the limelight so far in their playing, while the lesser lights have been doing dong along on about even terms. Of course there is always the possibility of a crack rink falling down, and being eclipsed in their glory by players of lesser fame, which adds to the interest of the curling game.

Provided the Chinook wind does not blow, there should be a couple of days of real sport next week, and those who intend taking part should complete their arrangements and notify the secretary as early as possible.

Bellevue Blues and Shamrocks Played Shamrocks Won Easy Victory on Friday Last in Crystal Rink

By a margin of seven goals to nil the local girls had the game their own way last Friday evening, and showed much superior form over the visiting team.

With the approaching visit of the Shamrocks to Banff, the girls were hoping to get a much harder game in order to get into better shape to meet the various other ladies teams which will take part, but the only team available for games is Bellevue.

The line-up of the teams last Friday was as follows:

Bellevue Blues—Goal, J. McDonald; defence, E. Serra, H. Dambols; forwards, Mary Brown, Irene Charsworth, Paula Leskoski.

Coleman Shamrocks—Goal, Mary McDonald; defence, Eliza Hadfield, Minnie Chalmers; forwards, Pat Fraser, May Muir, Dot Johnson, Phaeina Fraser, May Bell.

Cornelius Vanderhill, Jr., lost a fortune in publishing tabloid newspapers. And to pay his debts he had even mortgaged his inheritance.

NOTICE Of Annual Meeting

Public Notice is hereby given that a meeting of the Electors of the School District No. 1216, at 7 o'clock p. m., in the Council Chambers, Coleman, for the purpose of reading the Auditor's report of the finances of the district.

Dated at Coleman, this 21st day of January, 1928.

JAMES FORD,

Secretary-Treasurer

Would Like to See School Grounds Fenced

The Journal this week was interviewed by a ratepayer of West Coleman who strongly advocates the necessity of an ornamental fence being erected around the school grounds there, partly as protection for the children during their playing hours, and also to improve the appearance of the school. In its present condition it looks neglected, and shows up in sharp contrast to Central school which last summer was improved by the building of a new cement wall and the erection of an iron picket fence.

Another reason why this improvement should be made is that an automobile road runs on either side of the school grounds, and as tourist traffic will be continually increasing over this route through the mountains, necessity not only demands protection being afforded to the children, but the impression created in the mind of those passing through is a factor to be considered.

Coleman prides itself on being the premier coal mining town in this end of the Crow's Nest Pass, and civic pride on the part of many of its citizens asserts itself in agitating for improvements which are not only necessary but will give them a stronger feeling of pride in their surroundings.

St. Alban's Annual Parishioners Meeting

**Finish Year With All Liabilities
Paid—W. A. Helps Greatly
in Church Finances**

The annual meeting of the parishioners of St. Alban's was held on January 16, presided over by the rector, A. D. Currie, when the financial statement for the past year was submitted by the people's warden, Mr. Morris. This showed all assessments for the year paid, with a small balance owing on liabilities for materials. The W. A. report by Mrs. Jackson showed a very good result of the year's work by the ladies with a total revenue of \$681.10, and expenditures of \$191.50, of which they had given a grant of \$100 to the vestry and had also paid for light, water and fuel used during the year.

The Sunday school report by Mrs. Borrowes showed 101 children on the Sunday school register and six teachers.

The election of wardens and vestry for the ensuing year resulted as follows: Rector's warden, (appointed by Mr. Currie) Frank Graham, jr.; people's warden, Mr. Morris; vestrymen, R. F. Barnes, W. L. Borrowes, J. Rushton, Allan Brown, Fred Thom, F. Harrington, H. T. Halliwell, H. T. Halliwell and R. F. Barnes were elected as delegates to the synod, and Mrs. Cornett kindly volunteered to act as envelope secretary for the year.

Votes of thanks were passed to the superintendent of the Sunday school, Mrs. Borrowes, to the Women's Auxiliary for their much appreciated help throughout the year, and to the organist, Mrs. Jackson and the choir, and to the rector and Mrs. Currie.

Following the meeting a social hour was spent, refreshments being served by the ladies. It was decided to interview all church members with a view to securing their pledges for support for the year, and at a meeting of the vestry held last Sunday evening the members decided to interview the members of the congregation and report at a meeting to be held following their canvass.

Death Summons Coleman Woman

**Mrs. Van Maaron, 63, Native of
Holland, Dies at Son's Home
Thursday**

The death occurred Thursday afternoon at 4:30 of Aggie Van Maaron, wife of John Van Maaron, Sr., who passed quietly away at the home of her son, John Van Maaron, of Carbondale.

Mrs. Van Maaron, who was 63 years of age, was born in Holland and came to this country with her husband and family 18 years ago, settling at Seven Persons. She is survived by her husband, John Van Maaron, Sr., living at Coleman; three daughters, Mrs. Anton Carlson of Seven Persons, Mrs. C. Anderson of Rocky Mountain House, and Mrs. J. Peterson of Priest River, Idaho, and four sons, John of Coleman, Leonard and Case of Seven Persons, and Pete of Olds.

The funeral took place at 2 o'clock Monday afternoon, the services being conducted by the Rev. H. J. Bevan.

Coleman Rink at Lethbridge Bonspiel

Coleman Curling Club is represented at the Crow's Nest bonspiel at Lethbridge by a rink skipped by Harry Boulton, the other members being Ed. Ledieu, Wm. Johnson and J. S. D'Appolonia. As they are all crack curlers and imbued with the necessary enthusiasm which enables a man to play all day and throughout the night if necessary they have the necessary qualifications which a bonspiel player must have if he is to stay in the game with all the other crack curlers.

The deceased with her husband have farmed for a considerable number of years in Alberta, and during the winter have resided with their son in West Coleman.

Card of Thanks

We wish to express our appreciation of the kind expressions of sympathy and kindness shown in the death of a beloved wife and mother, and to also thank those who sent flowers.—John Van Maaron and family.

Ratepayers Annual Meeting

Notice is hereby given that the annual meeting of ratepayers will be held in the council chamber of the Town of Coleman.

FRIDAY, JANUARY 27th, AT 8 p. m.

when the auditor's report for 1927 will be presented and the year's work reviewed.

JAMES FORD, Sec.-Treas.

Ratepayers Meeting To-Morrow Evening

**Financial Report of Year Will Be
Presented and Council Will
Review Year's Work**

Elsewhere in this issue is printed the financial report covering the past year for the town of Coleman, so that the ratepayers may see how the money has been expended. It shows that less than \$15,000 has been received by the town treasury and when the absolutely necessary expenditures are considered for the administration of civic affairs then the council for the past year have certainly wisely and economically handled the public funds. One of their heaviest outlays, apart from the public improvements, was for health and relief, this showing disbursements of \$2446.30, or approximately one-sixth of the total revenue for the year.

Re Town Financial Statement

Under the head of Finance is the financial statement of the town printed in this issue, the item for Light and Water Committee expenses is given at \$1124.25. This however, includes all legal fees and expenses, the actual expenses of the committee being, \$330.95, the balance of \$793.30 being legal fees, accountant, stenographer, telephones, etc.

St. Alban's Church

Sunday, January 29th, Morning Prayer at 11 a. m., Sunday School at 9:30 p. m.

Friday, January 27th, Junior Choir practice at 7:00 p. m.

Envelopes have now arrived and can be procured from Mr. Graham at the Post Office or from members of the Vestry.

Bell's Rink Wins Morrison Cup

**Keenly Contested Game Against
Roughhead's Rink Won by
One Point**

After playing six games each in the Morrison cup competition, the rinks of W. Roughhead and J. Bell met to decide who should lift the cup from the winner of last year's competition, E. F. Gare. Great interest was centred in the game, for both rinks have a good record so far this season, and chances were considered even. Bell was fortunate in getting a lead of six in the early part of the game; Roughhead gradually pulled up till he had the lead in the ninth end with a tally of 12-11. At the twelfth end the score was 16-14, Roughhead scoring three which made the tie. In the thirteenth end Roughhead was laying short till Bell threw his rocks, putting him one ahead and winning the game, making the final score of 16-15 in favor of Bell.

There were several spectators who greatly enjoyed the game, and a keener edge was given to it by some of the enthusiasts having a few side bets on the game. It was a keenly contested game throughout, as the score indicates, and aroused more interest than any game played this season so far.

The players were: J. Bell, skip; W. Chapman, W. Bell, R. Burt.

W. Roughhead, skip; T. Holstead, R. Peuman, Jim Rossell.

Coleman Taxis Lose to Bellevue Boys

**Visitors Get Long End of 10-4
Score in Game Here
Yesterday**

The game was faster and more interesting to watch than the one sided score would indicate. The Bellevue team are a smooth working organization with a well thought out system of combination, and in addition many of the individual players are speedy and clever stick-handlers. When the disparity in practice and match experience are taken into account the score should be far from discouraging to the Taxis boys.

The boys appreciate the support given them for this game, the proceeds of which will enable them to purchase part of their much-needed equipment. More practice, more experience and more study of the game will soon enable the boys to give their supporters something to enthuse about.

Hockey is only one branch of the activities of this organization. Taxis is the senior boys section of the young peoples work of the Religious Educational Council of Canada, and whose aims most of our readers are probably familiar.

Notice to Advertisers

Copy for new advts. or for changes must be in by Tuesday of next week or earlier, to appear in Thursday's issue. Kindly remember this and have copy ready.

Saint John Harbour

Completing her maiden trip across the Atlantic, the "Beaverburn" new fast cargo liner for the Canadian Pacific Railway fleet, docked at Saint John, N.B. to receive the official welcome of several officials of that company, among whom were, W. R. MacInnes, vice-president in charge of traffic, and W. A. Wainwright, assistant to the chairman, Canadian Pacific Steamships Limited, also the harbour officials of that port. A thorough inspection was made of the vessel and appreciation of her qualities was expressed.

"The Beaverburn" is the first of five fast cargo vessels, which will be known as the "Beaver" class, displacing 10,000 tons and having a length of over 300 feet. These ships are capable of making the ocean passage in ordinary weather conditions at an average speed of fifteen knots, the Beaverburn however, attained a speed of 16 knots on her trial trip.

These cargo ships will provide a weekly departure from Canada every Friday, arriving in London nine and a half days later. Montreal is to be their Canadian port during the summer and Saint John in the winter. The liners are considered the finest and highest class of cargo ships afloat today. Another steamer of the passenger style, the Duchess of Bedford will be launched at the Clydebank shipyards January 24.

Altogether there are to be five Duchess liners attached to the Canadian Pacific Steamships. To date the Duchess of Athol has been launched, the Duchess of Bedford will be launched shortly, while in 1929 the third and fourth to be delivered will be Duchess of Richmond and Duchess of Cornwall, with one more ship to come.

Government vs. Private Ownership

It does not call for the vision of a seer, or the wisdom of a seventh son of a seventh son, to realize that a battle royal is looming up on the horizon of Canada's national life involving acceptance of one or the other of the two policies noted in the heading of this article. It will be a battle of giants, with not merely millions or tens of millions, but hundreds of millions of dollars at stake.

The initial stages of this gigantic financial battle are now being waged over the subject of control and development of vast water-powers in various parts of the Dominion. In more than one instance these are linked up with schemes of canalization, as, for example, the Great Lakes-St. Lawrence waterways scheme, and the long discussed Georgian Bay Canal project. Although both of these undertakings must be carried out in the East, they are matters of vital interest to Western Canada.

Financial, commercial and industrial interests in Montreal and Toronto may be interested, and more or less directly affected by the deepening of the channels of navigation between the present head of ocean navigation at Montreal, and the head of the Lakes ports of Port Arthur and Port William, and the more vital concern of these financial magnates is centered in and upon the development of the huge water-powers which will be made available as part of this canal construction.

The West, on the other hand, is more concerned about the greater waterways feature and the effect which the deepening of the water channels between the head of the Great Lakes and the Atlantic seaboard will have on freight rates, both by water and rail, on the huge exportable surplus of Western products.

So far as the Great Lakes-St. Lawrence project is concerned, it is not wholly a domestic matter for Canada. It is an international matter, inasmuch as a portion of the St. Lawrence belongs jointly to Canada and the United States, and the construction of the proposed deep canal system will affect approximately forty million of the people of the neighboring republic.

Eastern financial interests, whose real concern is to secure private control of the vast water-powers to be developed, are busy raising the bugaboo of United States interference in Canadian affairs, United States control of Canadian resources, and are urging all the possible dangers of entangling alliances. The old, worn-out stock arguments used at the time of the Reciprocity campaign are beginning to be trotted out once more, the Old Flag is to be waved, and all and sundry who do not see eye to eye with the financial magnates looking with a jealous eye of this wealth of water-powers are to be classified as traitors to the Dominion.

There is some evidence, too, that, as on former occasions when questions of great national moment were for discussion and decision, attempts will be made to cloud the real issue by again raising despicable cries of race and creed, and seeking to set one section of the Dominion against another.

Too frequently in the past, with great national policies at stake, the people of Canada have allowed themselves to be awayed by these cries and have been made the victims of their own shortsightedness and foolishness in giving heed to such unworthy appeals. Now that Canada has largely put these things into the background and is moving forward to a development and prosperity unsurpassed in its past history, it is to be sincerely hoped that any and all such ignoble attempts will receive no quarter from the overwhelming majority of the Canadian people, that they will put their feet down, and put it down hard, upon any such campaign, the originators of which are the real enemies of and traitors to Canada.

We are not proposing to discuss the respective merits of public and private ownership. But we would most earnestly ask the people of Western Canada to be on their guard, and in the discussions which are bound to take place within the next few years, to keep their minds persistently on the facts of the case, and not be influenced one way or the other by party cries, sectional, sectarian, or partisan appeal. It is the national good of all Canada, present and future, that is at stake.

Millions Spent On Roads

Canada Has Built 7,436 Miles In Last Few Years

Out of a total of 8,415 miles of road provided for under agreement authorized by the Canada Highways Act of 1919, 7,436 miles has been completed at the end of the fiscal year ending March 31, 1927. This is shown in the annual report of the Commissioner of Highways.

This mileage was constructed under the provisions governing the Federal subsidy whereby the Dominion Government undertook to furnish 40 per cent of the cost, the province taking care of the remainder.

The estimated subsidizable cost of the highways was \$48,900,972.

WOMEN WHO ARE WEAK

Gain New Vitality By Building Up the Blood

There are many women who pass their days in a constant state of weariness. They have barely sufficient energy to enable them to perform their manifold duties. Often they have an aching head, a miserable pain in the back, and the limbs just feel as heavy as lead. The whole trouble is due to bloodlessness. No woman need suffer in this way. It is easy to obtain a supply of rich blood by taking Dr. Williams' Pink Pills. The new blood created by these pills rapidly builds up the system; headaches and backaches disappear, energy returns and the joy of living is felt once more.

Proof of these statements is given by Mrs. Ed. Latimer, Stony Point, Ont., who says:—"For a long time I had been in a very miserable condition, always feeling tired, out of energy and weak. The least work about the house would leave me helplessly tired and nothing but a good night's sleep, believing that a rest might do me good, we moved to town, but, contrary to expectations, I was not getting better. I was growing steadily weaker. One day while talking to a neighbor, she urged me to use Dr. Williams' Pink Pills, telling me that her daughter had been in a condition much like mine. This persuaded me to try this medicine, and I have much reason to be grateful that I followed her advice. Since the use of a few boxes of the pills, there could be no doing all my own work and as I continued their use my health and strength came back and now I am doing all my own work and feeling in the best of health. For this splendid condition I must give my thanks to Dr. Williams' Pink Pills. The pills are sold by all druggists, and you can get them by mail at \$5.00 a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Making Place Homeless

Manager Of New York Hotel Had Right Idea

"My wife has been ill; please make your room look home-like and inviting," wrote a lady to the manager of one of New York's leading hotels the other day. An assistant manager was assigned to carry out the man's idea.

And here is what he did: He purchased the latest magazines and newspapers and dropped them carefully about the room.

He placed a vase containing fresh flowers on a table in the room.

He left a box of candy open on the lounge.

He arranged the chairs and tables and ornaments in a "home-like" way and then spent half an hour trying to find an agreeable cat to sit by the artificial fireplace he had fitted into the most convincing spot.

Awful Asthma Attacks. Is there a member of your family who is the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy renders its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

Motor Driven Sleighs. Plans are under way for the establishment of a regular line of transportation by sleighs driven by airplane motors between Omsk and Tara, Siberia, according to advices received by the Department of Commerce. The route to be covered is 200 miles long. Sleighs are expected to maintain a speed of thirty to thirty-five miles an hour.

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It helps to loosen up the muscles and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a century. It is on sale everywhere and can be found wherever required for.

For Farming In Alberta. The growing importance of the fur farming industry in Alberta is indicated by the importation recently of a shipment of 27 pairs of silver foxes from ranches in the Maritime Provinces. These animals, valued at \$25,000, were consigned to the National Silver Fox Club at Morinville, a newly organized firm which plans to engage in fox breeding on a large scale.

A lawyer is the only man who ever comes out ahead in opposing a woman's will.

Manitoba Agricultural College Re-Union

400 Ex-Students To Celebrate the Coming Of Age of the Institution

Friends and ex-students of the Manitoba Agricultural College are preparing to celebrate the coming of age of that institution at a re-union to be held February 16 and 17, for it is twenty-one years ago since the charter class foregathered.

Re-unions come with unflinching regularity in M.A.C. circles, but this one, on account of its historic significance, is to be the daddy of them all. A big committee under the energetic leadership of J. H. Kovacs, deputy minister of agriculture, is making a special drive to get in all ex-students, particularly those who went through the mill on the old site at Tuxedo, now the military barracks. The evening of the re-union will be given over to a banquet. Efforts are being made to secure the attendance of Dr. W. J. Bineck, Montreal, President Reynolds, of O.A.C., and Hon. John Bracken, the three ex-presidents of the college. Mr. Evans estimates that at least 400 ex-Aggies and Household Science graduates will be on hand, every one of them cautioned to leave seriousness at home.

The afternoon of the second day will be spent in visiting the classrooms and laboratories at St. Vital. Students now in attendance at the college stand prepared to take the contest out of graduate athletes who may be harrying any notion that they can still curl or play basketball. A dance at the college will wind up proceedings.

Another Victory For Science

Danger Of Collapse After Pneumonia Crisis May Soon Be Overcome

Forecast of an imminent announcement that medical science had achieved another great victory was made before the Canadian Club at Toronto, by Prof. J. C. McLennan, of Toronto University.

Danger of collapse following a pneumonia crisis, caused by inability of the body to attain requisite temperature, may be overcome as a result of recent observations in the General Electric laboratory in Schenectady, N.Y.

It was recently observed that operators experimenting with a long measure wave apparatus built for radio suddenly had a tremendous rise in temperature. It soon became apparent that if these waves could be controlled and applied to sodium chloride in the blood there was a marked absorption and the temperature was increased to a given point. It is now believed by application of these waves any known temperature required to destroy different disease-forming organisms can be produced without danger to the patient.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

Recipes For This Week

(By Betty Barclay)

Carroted Gelatin Salad
1 package lemon-flavored gelatin.
1 1/2 cups boiling water.
1 cup canned beet juice.
1 cup celery, shredded.
1 cup beets, diced.
1 cup Spanish onions, cut fine.
1 green pepper, shredded.
1/2 teaspoon salt.
Dissolve gelatin in boiling water. Add beet juice. When cold, add celery, beets, onions, green pepper and salt. Pour into individual molds. Turn out on lettuce, serve with Mayonnaise dressing. Serves eight.

Fifteen-Dollar Pie
1/2 cup sugar.
2 tablespoons flour.
1 1/2 tablespoons melted butter.
1 tablespoon lemon.
1 egg yolk.
1/4 cup milk.
1 egg white.
1/2 cup grains salt.

Mix sugar and flour, add melted butter, lemon juice, egg yolk slightly beaten, milk, egg white stiffly beaten, and salt. Bake in one crust, and cover with meringue or not, as desired.

Bakers Are Good Swimmers

Is there any connection between swimming and baking? asks a daughter of a German baker who lived in England for some time but who is now employed at Frankfurt, Viernotte, the German Channel swimmer of last year, is a baker, and his wife, who won the Berlin women's swimming cup, takes an active part in his business. The Frobenius kitchen, who holds the record for swimming from France to England, is also a baker.

For frostbite use Minard's Liniment.

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacturers. While it is true that Aspirin means Bayer, it is also true that Bayer means Aspirin. To assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Compulsory Wheat Pool

United Farmers Of Alberta Are Opposed To This Idea

By an overwhelming majority delegates to the recent annual convention of the United Farmers of Alberta, held in Calgary, defeated a resolution calling for the establishment of a compulsory wheat pool, providing the next sign-up exceeded 60 per cent of the farmers of the province.

D. H. Smith, Cereal, Alta., sponsor of the resolution, stated pool members should not pursue the "ineffective policy of trying to educate non-pool members, but that the Government should be called upon to pass legislation forcing them into line."

C. C. Reed, Wetaskiwin, remarked it was an easy matter to suggest a compulsory wheat pool, but another problem to put into practical operation.

It should be the object of the pool members to make conditions so favorable for non-pool members that they will be glad to join without legislative coercion," he declared.

Savings deposits in the chartered banks of Canada at the end of 1927 totaled \$1,400,000,000 or over \$140 per head of the population of the Dominion.

When a woman reaches the limit of her argument she gets angry.

Headed List Of Winners

All First Prizes Taken By Herman Trelle At Calgary

Herman Trelle, of Wembley, Alta., internationally famous seed exhibitor, showing specimens of Marquis and Garnet wheats at the annual Provincial Seed Fair held at Calgary, secured first prize in every class including the grand championship event in wheat.

Mr. Trelle was exhibiting wheat from zone two, the Northern part of the province, and in all the four classes from spring wheat to hand selected he headed the list of winners.

Edinburgh is to be commended on its decision to sell its relics of the Great War, and give the money to charity. Better that children should have food and clothing than have machine guns to play with.

"Buckley's" For Throat Health
A slip night and morning relieves soreness and hoarseness and prevents more serious developments. A bottle of Buckley's—49 doses for 75 cents—is an economical guarantee of healthy throats for the whole family. Pleasant to take—tasteful in action—effective in result. All druggists sell it.

Experimental Farm For North

Establishment In Meadow Lake District Has Been Approved

Of interest to the settlers in the far north of the North Battleford federal constituency is the news that the federal department of agriculture has sanctioned the establishment of an experimental station at Meadow Lake. The farm will be selected, and will be put in operation during the coming summer. The telegraph line built this year, linking up the 55 mile stretch between Meadow Lake and Loon Lake is now in operation, and is already proving a boon to the people in this remote part of the province. With better farming facilities and improved conditions for the settler, a development of the agricultural possibilities is expected, resulting ultimately in improved railway and highway service.

It takes a wisp to make a lazy man get a move on himself. All it has to do is to back up against him and push.

Carols were first sung in the thirteenth century.

U.F.A. MAY SPLIT WITH COUNCIL OF AGRICULTURE

Calgary.—Early severance of relations between the United Farmers of Alberta and the Canadian Council of Agriculture, known as a possible development in the passing of a resolution at a session of the United Farmers of Alberta convention, following presentation and acceptance of a report on the year's activities of the council.

The resolution, which was introduced at the suggestion of H. W. Wood, president of the U.F.A., instructs the executive committee to prepare a report containing recommendations as to the future relationship with the Canadian Council of Agriculture and to reveal its findings at the annual convention of the organization next year.

This recommendation was submitted as a substitute for another resolution which urged the immediate creation of a committee with powers to enter into negotiations with other provincial farmers' organizations, in an effort to bring into being a new central body.

Following brief discourses by a number of delegates in which the merits and shortcomings of the Council of Agriculture were set forth, Mr. Wood was appealed to for advice.

The president admitted that to counsel the organization on a question which involved the repudiation of the "tearing down" of another agency was a serious task.

"Personally I don't think the Canadian Council of Agriculture has produced the results most of us anticipated," Mr. Wood declared. "Some believe this is due to the fact that certain commercial organizations are connected with it. I very much doubt whether that is the primary cause. I am more inclined to believe it may have something to do with its personnel."

"I made up my mind about three years ago that the council could not be of sufficient benefit to the movement to warrant my attendance at its meetings," Mr. Wood added.

The veteran leader warned the delegates it would be better to leave things untouched rather than to precipitate the movement into greater confusion.

Served In South Africa

Duke Of Richmond Dies At Home In England

London.—Charles Henry Gordon-Lennox, Duke of Richmond and Gordon, and aide-de-camp to King George, died at his home, Cowdwood House, Chichester, after a brief illness. He was 82 years old.

The Duke of Richmond and Gordon served as aide-de-camp to Queen Victoria, King Edward and King George. He was a former member of parliament and was a colonel in the Sussex regiment. He was Lord Lieutenant of Eglon and Banff, and had been chancellor of Aberdeen University since 1917.

He served in the South African War and was mentioned in despatches.

Television Established

London.—Television already has been successfully established between London and New York, according to L. G. Hutchinson, director of the Eired Television Company. Prior to rolling on the Aquitana for New York, Mr. Hutchinson announced secret experiments had been in progress for six weeks and that recently "contact" with New York was made on several occasions, it being possible to see the faces and hands of individuals, although the features were indistinct.

Would Safeguard Public

Toronto.—That definite results followed United States legislation prohibiting the sale of eye-glasses by unqualified persons, was the statement of Dr. Leo Mayer, president of the Association of Optometrists of America, speaking to the Ontario Association here. He advocated that Canadian colleagues make adopted as a safeguard for the public as well as a benefit for qualified opticians.

Millions For Manitoba

Winnipeg.—More than \$120,000,000 came to the province of Manitoba from the field crops for the fiscal year ending April 30, 1927, according to the annual report of the department of agriculture placed before the legislature by Hon. A. Prefontaine, Minister of Agriculture.

W. N. U. 3717

Spies Are Convicted

Two Men Are Sentenced In Britain

London.—An Old Bailey jury convicted two men of trafficking in British official military secrets in the interests of Soviet Russia and dealt a heavy blow to what the prosecution termed "a dangerous spy organization operating against the safety of Great Britain."

Witfrid Thomas McCartney, variously described as an Englishman and as an Irish-American, and George Hanson, a youthful German, were sentenced to ten years' penal servitude each on their conviction.

McCartney was accused of being the chief spy and Hanson his aide in obtaining and communicating information useful to opponents of Great Britain in warfare. While admitted that he had been engaged in the espionage organization had been trapped. Attorney-General Hogge declared the activities of the arrested men had been halted before material damage could be done to the country.

Stanning up, the Lord Chief Justice said the accused had been convicted of "terrible offences" and denounced them for trafficking in official secrets for gain, uninspired by any thought of serving their own country.

Want More Prize Money

Would Have Exhibition Boards Boost Prizes For Short-horns

Regina.—Calling upon the Saskatchewan and Regina exhibition boards to increase the prize money for the "Short-horn" classes at the two annual fairs, delegates to the annual meeting of the Sask. Short-horn Club here expressed appreciation at what had been done for them in the past. It was the desire to encourage the small breeder to show at these summer fairs, that the boards will be asked to increase the money prizes for Short-horn bred and owned within the province.

Jorn Brandt, Edenwold, was re-elected as president, with Mr. A. G. Hopkins, Surtbush, as vice-president, and Chas. Hartison, Belle Plaine, as secretary.

Reports from the secretary and president indicated that the club is increasing in numbers, and that there is a greater interest in the breed being developed in the province.

No annual sale will be held this coming fall, as it has been found that weather conditions prevent a large number of breeders attending.

May Study At Scotland Yard

Winnipeg.—The Provincial Government and the city of Winnipeg are considering sending some senior officers of the provincial and city police forces to England to take advantage of a special course of instruction to be given at Scotland Yard at the invitation of Old Country authorities.

Beer By The Glass

Toronto.—The Ontario Legislature will open in three weeks, and according to The Toronto Star, it is possible the question of sale of beer by the glass may be a live issue at the session.

MANY WESTERN MATTERS ARE TO BE DEALT WITH

Ottawa.—Western matters will have considerable prominence in the legislation of the forthcoming session of parliament. There will be a large additional vote for the Hudson's Bay Railway and if the anticipated agreement is reached regarding the potting of Saskatchewan, legislation may be required although it may be effected by order-in-council. In any event, the subject will be before the House.

Alberta and British Columbia also figure in the sessional program and in legislation defining the boundaries of national parks to Alberta. An agreement on long standing points of dispute will be sought.

The re-survey of boundaries made in the last few months paves the way. The fundamental interest in the parks which the Dominion proposes to retain will be the scenic beauty, leaving to the province the water powers and minerals to a large degree. The Dominion Government is willing to exclude Spray Lakes and other powers from the parks, allowing it is guaranteed against future claims by the province respecting any mineral deposits which may be incidental to the essentially scenic portions of the domain. In other words, it is proposed to establish a new boundary and exclude the villages, water powers and the known mineral deposits, providing the title to the remainder is left inoperative in the Dominion. An agreement along these lines is probable. The resources to be excluded would be held by the Government until such time as the resources generally are returned.

Meanwhile, in regard to the latter question, there are no new developments. Conferences on the subject last week between Premiers King and Brownlee are expected to result in a pronouncement one way or the other, when the latter has consulted his colleagues. The Dominion Government is desirous of having the constitutional issue finally determined, after which it is prepared to return the resource, but difficulty has been encountered in getting the case before the Privy Council without some new intervention. The obstacle arises from the unusual procedure of the federal government appealing a judgment in its own favor.

In regard to British Columbia's case for better terms, a report from Mr. Justice Martin is awaited. The hearing has made it pretty clear that if the lands sought are returned it will not be in recognition of a legal claim but as a matter of equity.

Preparing For British Election

London.—Political circles are very much interested in a rumor that a general election is planned by the Conservative party organizers for the end of this year. The attitude of the Liberal and Labor parties is: "Be Prepared." Both parties, therefore are busily engaged in preparing for the election.

New Ruling At Ottawa

Fee Of \$25.00 Now Charged All Parliamentary Agents

Ottawa.—Before a parliamentary agent can appear before the House of Commons to promote or oppose any private bill or petition, he must pay a fee of \$25 and secure the express sanction of the Speaker of the House.

This is contained in a new ruling. Now there are nearly 30 such measures on record and proponents and antagonists alike, aside from members of the House will have to conform.

WAS WAR ACE

Capt. F. J. Stevenson, war ace, and member of the Ontario Provincial Corps, who crashed to death at The Pav. Man, when his plane nose-dived into the street.

Asks For Wider Powers

Regulations Governing Soldier Cases Not Flexible Enough

Toronto.—As a result of the report of Col. A. T. Hunter, on his recent investigation into the Department of Soldiers' Civil Re-establishment here and in Hamilton, London, Ottawa, and Montreal, the minister, Hon. Dr. J. H. King, will ask Parliament to grant wider powers in dealing with the cases of the veterans, said the Globe here.

At the present time, it is said, the regulations are not flexible enough, so that in certain exceptional cases hardship is undergone by veterans.

Manitoba Will Adopt Immigration Scheme

Bringing Boys From England For Placement On Farms

Winnipeg.—The British boy immigration scheme has been adopted by the Manitoba provincial government and about 50 lads will be brought here this year for placement on farms in the province, Hon. A. Trepanier, Minister of Immigration, has announced.

Temporarily, the boys will be placed at Manitoba Agricultural College, where they will receive training to accustom them to farm work.

Fee Of \$25.00 Now Charged All Parliamentary Agents

Ottawa.—Before a parliamentary agent can appear before the House of Commons to promote or oppose any private bill or petition, he must pay a fee of \$25 and secure the express sanction of the Speaker of the House.

This is contained in a new ruling. Now there are nearly 30 such measures on record and proponents and antagonists alike, aside from members of the House will have to conform.

Liverpool Greet

Canadian Farmers

Miss Cora Hind Kiplied To Address For Visitors

Liverpool.—The touring Canadian farmers spent 48-hours visiting Liverpool, Birkenhead and other points on the Mersey River, and their visit created considerable interest here.

One Liverpool paper says of them: "They are dressed like Englishmen in their Sabbath best, except for a few who give distinction to the party by wearing fur coats."

The farmers were welcomed on the corn exchange by President Barker, who assured them that Canada's wheat graded as reliably as a bank note.

Miss Cora E. Hind, Winnipeg, replied for the visitors in an address that was replete with information about the Dominion's resources, advantages and progress.

The visitors were received at the city hall by the Lord Mayor, Miss Margaret Beavan. Short speeches were made by many of the leaders in Liverpool's great commodity handling business. Conferences were held in the fruit and general produce exchanges.

The party visited the Liverpool Cathedral, of which, after 20 years building, only a part has been completed and the complete construction of which may occupy a century.

GRADING SYSTEM FOR WHEAT IS UNDER REVIEW

Calgary.—Following a debate during which every phase of the question of grain grading was explored, the United Farmers of Alberta, in convention here, by an overwhelming vote declared their opposition to the introduction of measures which might result in the lowering of the standard of Canadian wheat on the markets of the world.

Two resolutions were presented on grain grading. One advocated a division of grades to provide for increased moisture content, "tough A" testing from 14.4 to 15.5, and "tough B" from 15.5 to 17 per cent. It was suggested the spread in price be proportional. The other resolution asked the convention to petition the Government to empower the Canadian Board of Grain Commissioners to allow a certain amount of damaged grain to go into contract grades of wheat and Northern. Both resolutions were rejected.

Before consideration of these recommendations, the systems of grain inspection and grading now in vogue in Canada were explained exhaustively by J. D. Fraser, chief of the western grain inspection division, and James Robinson, member of the Board of Grain Commissioners.

For nearly three hours the two officials were bombarded with questions from the floor of the convention. They were requested to show grain standards were set, why grain from the same field produced wheat of varying grades, the best file of drying, results of re-inspections, the effect of mixing on the reputation of the Canadian product, and answer a barrage of queries bearing upon the movement of wheat from the time it is shipped to the country elevator until it reaches the export market.

Claims were made that the important task of inspecting the wheat of the country was being placed in the hands of incompetent men who often proved to be "poor guessers." To overcome this objection it was urged inspectors be drawn exclusively from the agricultural population and not from the civil service.

Replying, Mr. Fraser declared all inspectors were required to pass a rigid examination before appointment. Illustrating the difficulty in obtaining suitable men, he pointed out that from a recent list of 55 applicants only 12 had survived the test.

"Trading," Mr. Fraser added, "is primarily a matter of judgment. Naturally every man's judgment is not the same and wherever the human element enters, there is always possibility of mistakes. In reaching classification of grain inspected, we are solely guided by the terms of the Canada Grain Act and our efforts at all times have been to reach some basis of uniformity."

Mr. Fraser explored the increasing number of varieties of wheat being produced in the country. Fifteen years ago, he said, when the varieties were fewer, the grade of wheat had been considerably higher than at present. He expressed the opinion that half a dozen varieties would be quite sufficient.

BRITISH ENVOY AT OTTAWA IS IN PROSPECT

Toronto.—In the course of discussion with Mr. Mackenzie King, in Ottawa, this week, on various matters arising out of the last Imperial Conference, Right Hon. L. C. M. S. Amery, British Secretary of State for the Dominions, expects to take up the suggestion for the appointment by the British government of a representative to be permanently resident in the Canadian capital and in close contact with the Canadian government in Imperial affairs.

"This officer need not necessarily have a title or high standing as High Commissioner, but he will be in a position to act as a sort of liaison officer for the British government," Mr. Amery said, and pointed out that the principle of such an appointment was considered at the last Imperial conference. It was decided by resolution that such a representation between Great Britain and the Dominions would be an excellent thing for the Empire.

Canada and other Dominions had their respective high commissioners already in London. It was left for future discussion to develop the program of appointments by the British government to the Dominion capitals.

At present the Home Government had in South Africa an officer known as "Imperial Secretary," who dealt with the affairs of the Dominion British dependency. In answer to a question, Mr. Amery said in no way would the appointment of such an official by the British government interfere with appointments by the Governor-General. The Governor-General was the representative of the Crown. That was laid down clearly in the discussions of the Imperial conference. Not for a generation at least had any British government asked a Governor-General to interfere in the affairs of the government of a self-governing Dominion.

World Shortage Of Leather

Higher Prices To Encourage Cattle Industry Said To Be Only Remedy

Montreal.—"A world shortage of hides and leather, which is approaching almost famine conditions in some countries, has created a trying and difficult situation for the boot and shoe industry," declared S. Roy Weaver, manager of the Shoe Manufacturers' Association of Canada, addressing a meeting here.

Mr. Weaver explained that world factors, entirely beyond the control of any country or any industry, have been responsible for the runaway hide and leather market of recent months. The speaker added that an increase of 15 per cent. or more in the prices of boots and shoes was necessary in order barely to cover the cost resulting from the big advance in hides.

"There is no remedy for the present world shortage of cattle and hides except a period of higher prices, which will encourage the cattle industry in increased production," he added.

Re-Elected To Presidency

Calgary.—Unanimous demonstration of loyalty was accorded Henry Wise Wood in his re-election to the presidency of the United Farmers of Alberta for the third convention here. The candidature of the veteran leader was not opposed. Similarly the United Farmer Women of Alberta expressed their confidence in Mrs. R. B. Gunn, who despite protestations, was persuaded to accept the presidency of the U.F.W.A. for another year.

Survived Peculiar Accident

Quebec.—To fall into a manhole, while engaged in dumping money, and to be carried through the city's sewage system from upper town to lower town, a distance of about one mile, later to be emptied into and rescued from the St. Charles river was the experience of J. Bernard, a copywriter employed here. The extent of Bernard's injuries have not yet been ascertained.

Would Be A City

Regina.—Formal petition for the incorporation of the town of Yorkton as a city—the eighth in Saskatchewan—has been received by Hon. S. J. Letvin, minister of municipal affairs. The petition was signed by Mayor A. G. Stewart and Town Clerk F. J. Pilkington, and accompanied by the usual fee of \$2.00. The application will receive the consideration of the Municipal Government Council.

Syracuse, N.Y., has had no snow from November 1 to 27 years.

STUDYING MARKETS IN EUROPE

Farmers and others interested in agriculture in all parts of Canada are members of the Canadian National Europe Farmers' Marketing tour of Europe which is being spread over January and part of February. Of the 68, more than 40 were from Western Canada. This photograph is of a portion of the party which left Winnipeg, and includes Ernest Raper, Victoria, B.C., vice-president of the British Columbia Dairyman's Association; Herbert Scott, district agriculturist of the Alberta Government, Sedgewick,

Alta.; J. Haggerty, Olds, Alta.; Robert Johnson, Weather, Alta.; Ed. McConnell, Hamilton, Man.; W. J. Pollock and Wm. Guild, of Kenney, Man.; Parker Perry, W. U. M. Meacham, and M. G. George, Deloraine, Man.; Arthur Pargy, La Riviere, Man.; George Batho, assistant representative of The Nor-West Farmer, Winnipeg; Robert Johnson, Winnipeg; John Birschman, Canadian National Railways' agricultural agent, Winnipeg; and J. S. McGowan, manager of the railways' department

of agriculture and colonization. Absent from the photograph because they went in advance of the party, are, among others: Hon. George Langley, former president of the Saskatchewan Grain Growers, and member of the Saskatchewan Government; and D. W. Warner, ex-M.P. of Edmonton. Eastern men making the tour include H. S. Arkell, Dominion Livestock Commissioner and Hon. Walter Lee, minister of agriculture. Prior to Edward Island. The tourists will visit Denmark as well as England and Scotland.

Free Advice

The editor of this weekly family journal asked the question at a public meeting as to how public interest might be aroused in civic affairs, when one of the council facetiously remarked that if we referred to the columns of The Journal of last year, we might discover how to start something. Of course, it is just human to love a fight, and most people get quite a kick from seeing somebody else doing the fighting, but the thing is that too many will not even interest themselves in matters that concern them and leave it to others to do the fighting, while they will accept the benefits that might accrue without the least effort on their part. However, we are not going to start a fight at present just for the sake of stirring up things, no matter how much we desire to get a kick out of something.

A lady writing to a provincial daily newspaper states some honest-to-goodness truths in criticizing some of the pictures that are shown in the theatres, and comes to the conclusion that in the final analysis the people themselves are to blame. If the people would express disapproval of certain types of pictures by refraining from attending the theatres in which they are shown, she states it would soon clear the evil. She speaks particularly of pictures which glorify crime, and we have all seen them. But there is another type of picture which the public has to endure, and that is the "bum" comedy presented by actors who if they presented such an act in person as is shown on the screen would receive instead of bouquets ripe hen fruit or the hook.

The annual meeting of ratepayers is to be held to-morrow evening. As there is no vital issue just at the present time, it is probable that many will not bestir themselves to attend, if the attendance at the ratepayers' meeting of last Wednesday is anything to judge by. Reward or appreciation for public service is nil, but criticism in plenty is showered if there is a slight increase in taxes.

That old story of making a better mouse-trap than anybody else and the world-will-beat-a-path-to-your-door may have been true before the days of modern advertising, but the man who has the path beaten to his door these days is he who not only has the goods and the prices, but also has sufficient confidence in the goods he is selling to tell the people about them by newspaper advertising.

The business which is successful is that which follows a consistent policy of giving value to the customer consistent with a fair margin of profit. No business can continue to give service unless it receives a profit on the goods sold, and the force of modern competition will ensure the public a square deal.

A writing pad distributed at the U.F.A. convention in Calgary urging people to buy Alberta made goods bore the imprint of a U.S. Manufacturer. Quite naturally a Calgary newspaper asks the reason why.

"Fine outlook for Canadian cattle," says a newspaper headline. Forgetting of course that the outlook finally leads to the slaughter-yard.

Lately there has been a newspaper discussion as to why Chinooks blow. One thing is certain, that they are welcome at almost any time during the winter, except at bonspiel time.

WINTER AND SUMMER THE ROUTE TO BANFF

**Here and There**

Evidence of reconstruction work in Yokohama is seen through the fact that a five storyed steel and reinforced concrete hotel was officially opened recently. The building, known as the Hotel New Grand, is of fireproof and earthquake-proof construction and is modelled after the style of the best Canadian hotels.

Toronto.—The Province of Ontario is at the close of the greatest gold producing year in its history, according to officials of the Department of Mines, who forecast an increase in gold production this year of \$2,000,000 was compared with last year's output. In addition, the total mineral production is expected to be more than \$21,000,000—a gain of \$6,000,000 over 1926.

Halifax.—Boys' and Girls' Swine Clubs are now well established here. Calf Feeding Clubs are also on the increase and it is expected that in 1928 the latter will attain the same number in the province as the former. Egg marketing circles are also being organized and much good work is already reported. These should prove a valuable aid to the poultry industry.

Preparations for the Banff Winter Carnival, to be held February 4-11, are well under way. Canadian mushers are training and intend to make a strong effort to bring back to Canada the "Strongheart Trophy" which was carried to the United States by Warren Cording, of Ashton, Idaho. It is anticipated that there will be several teams from the United States competing against this year.

Saint John.—An epoch in the transportation of cargo between Canada and the United Kingdom was felt here recently when W. E. MacInnes, vice-president in charge of traffic of the Canadian Pacific Railway, W. A. Wainwright, assistant to the chairman, with other officials of the railway, inspected the C. P. fast cargo liner "Beaverburn," which recently docked here, completing her maiden voyage.

According to a report covering the activities of the past year of the Canada Colonization Association, a subsidiary of the Canadian Pacific Railway, 626 families, consisting of 3,443 persons, were settled on 162,362 acres of land by the association. The value of these transactions is in excess of \$6,000,000. Nearly 300,000 acres of land are ready for settlement and prospects for the current year are very bright.

Vancouver.—In an address before the Board of Trade upon the services rendered the Dominion by the late Sir William Van Horne, founder of the city of Vancouver and president of the Canadian Pacific Railway, C. A. Cotterell, general superintendent of the railway's British Columbia district, said: "The Canadian Pacific Railway is the largest taxpayer and the largest purchaser in the province; it spent last year \$20,750,000 in stores and supplies, taxes, wages, etc."

Distinguished Guest Visits Alberta

Alberta during the past week has entertained a distinguished visitor in the person of Right Honourable L. C. M. S. Amery, Secretary of State for the Dominion, who with Mrs. Amery and party, is making a tour of the Empire. Mr. Amery addressed a luncheon of civic clubs in Edmonton on Friday and was entertained at dinner by the Provincial Government on Friday evening. In the course of his visit to Calgary on Saturday, Colonel Amery spoke to the Canadian Club and in the evening was the guest of the Ranchmen's Club.

FINANCIAL STATEMENT OF TOWN OF COLEMAN, FOR 1927

The Mayor and Councillors, The Corporation of the Town of Coleman, Coleman, Alberta.

Gentlemen:—
In accordance with your instruction, I have audited the books and accounts of the Town of Coleman for the year ended 31st December, 1927, and beg to report that I have obtained all the information and explanations I have required.
I have prepared the attached Statements for your information and have also completed the regular Auditor's Financial Statement issued by the Department of Municipal Affairs.

1. Cash Statement for year 1927.
2. Revenue Statement for year 1927.
3. Balance Sheet as at 31st December, 1927.

The Cash Statement records the details of the actual cash received and paid out during the year, and this Statement shows that the actual Cash Receipts were \$95,89 less than the payments.

The Revenue Statement shows a surplus for the year's work amounting to \$9,453.46, after providing for the annual Depreciation allowance on all the Town property assets except the Town Hall building.

The Revenue Statement shows a surplus because only the actual operating expenses are taken into consideration, (any capital expenditure being treated as an asset) and also because the actual Tax levy is treated as Revenue, although the total of the 1927 levy was not collected in full. The uncollected portion appears in the Balance Sheet as an asset.

The Water and Light Committee expenses have been heavy, due to the Town having to prepare its case for hearing by the Board of Public Utility Commissioners. The total includes the sum of Five Hundred Dollars (\$500.00) Legal Fee paid to Solicitor C. J. Ford of Calgary, but the final account of Mr. Ford has not yet been presented to the Town for payment, nor have the Board of Public Utility Commissioners definitely decided the question of costs.

The N. Binda account is carried as an asset because the Town has possession of this party's property until such time as the account is liquidated. Prospects also appear reasonably fair for the ultimate collection of the N. Orlando hospital account.

The Tax Sale Trust Account, \$111.60, should be transferred to an interest bearing account in accordance with the Act. I would suggest \$100.00 be placed in Alberta Savings Certificate and the balance in a Trust Savings Bank Account.

I would recommend that the Water Survey item be written off the assets. This Survey is several years old and the purpose for which it was done is of little value now.

In accordance with the provisions of the Town Act 1927, I have visited the Town of Coleman Office four times during the past year and have always found the records up to date, the cash regularly deposited with the Canadian Bank of Commerce, and the various accounts in balance.

I have verified the Cash on Hand and subject to the foregoing, I certify that in my opinion, the attached Balance Sheet is properly drawn up to exhibit a true and correct view of the affairs of the Town of Coleman at the 31st of December, 1927, according to the best of my information, the explanations given me and as shown by the books of the Town.—E. D. BATTURM.

Loyal Scots Honor Memory of Burns

Anniversary of Famous Scottish
Bard Celebrated in Fine Style
Last Evening

Burns' night was lyrically observed in the Knights of Pythias hall last evening by about sixty loyal Scots in a merry gathering which lasted till an early hour this morning, and which proved to be a very enjoyable affair. The first part of the program, under the chairmanship of Robert Holmes, consisted of Scottish songs and musical selections, including a sword dance and the sailor's hornpipe, the Fraser sisters performing these numbers very skillfully. Archie McCulloch with his characteristic comic songs, added greatly to the merriment of the evening, and Mrs. Phillips sang a soprano solo in pleasing style.

Following the program, the time honored custom of bringing the Haggis was observed, Brad Clarke bravely marching in with musical honors, escorted in by a number of stalwarts, depositing the honored dish at the head of the room, where the toast to the Haggis was proposed by Mr. Taylor. Supper was then served, and the Haggis disappeared very quickly, some enjoying it so much that there was mild disappointment when it was found the supply was not equal to the demand.

The remainder of the evening was very enjoyably spent in dancing, leading off with the Circassian circle, and the program was interspersed with some of the old family air Scottish dances, schottisches and polkas.

Death of Donnie Gare

The sympathy of a large number of friends will be extended to Mr. and Mrs. E. F. Gare, of Vancouver, in the death of their youngest son, Donnie, which occurred last week. The family moved to the city in August last, after residing in Coleman since 1922. When a very young child deceased had suffered from infantile paralysis, from which he appeared to have made almost complete recovery, he having enjoyed good health during the time the family lived in Coleman. Apparently the effects of the disease again took hold and after a brief illness he passed away and was buried in Ocean View Park cemetery on Wednesday of last week.

Donald Gars, 7, Buried

Funeral services for Donald Morrison Gars, seven-year-old son of Mr. and Mrs. E. F. Gare, 2479, Forty-seventh avenue west, who passed away Tuesday at the General Hospital, were held at 1.30 p.m. at the T. Edwards Co. chapel. Rev. E. D. Braden officiated and interment was in Ocean View Burial Park—Vancouver Province.

Create a Good Impression

There is no excuse for sending out poorly written letters by any business house or store when modern methods provide an easy means of sending out neatly typed letters and statements. A good or a poor impression is created by the quality of stationery used and the manner in which it is written. See that you use good stationery, with your firm name and address printed on, which is well worth the small extra cost of cheap paper, and your business correspondents will appreciate typewritten letters instead of having to ponder over writing that is often difficult to read when in a hurry. The Journal office can supply every requirement for the office, from stationery and office supplies to Remington Portable typewriters, which are useful for either the office or the home.

WORLD HAPPENINGS BRIEFLY TOLD

Clarence Chamberlin's third attempt to capture the world's duration flight record failed when he was forced down by ice forming on the wings.

Erection at Washington of a memorial statue of Samuel Compers, former president of the American Federation of Labor, is proposed under a bill introduced by representative Casey, Democrat, Pennsylvania.

Entombed for more than twelve hours by a fall of coal in a level hundred feet beneath the surface, nine miners at Hazleton, Pa., were rescued from their prison and brought out of the mine without a scratch.

The Earl of Athlone's term as Governor-General of South Africa, which began in 1924, will be extended for two years from Jan. 21, 1928, at the special request of the South African Government and with the approval of the King.

"The Repentant Magdalen" by Paul Vernece, a picture which exhibits the work of the great Venetian master in the first flush of his maturity, about the year 1558, has been purchased by the Canadian National Gallery.

The Alberta Wheat Pool has awarded a contract to the Northern Construction Company, Ltd., and J. W. Stewart, Vancouver, for its terminal elevator at Vancouver, came to be completed and placed in operation by September 1, 1928, and having a capacity of 2,000,000 bushels.

One Shot, the oldest Indian on the Hood Reservation and the only remaining Indian that signed Treaty No. 7 in 1877, died at his home on the Hood Reserve, near Moscow, Alta. He was 85 years of age and was buried near his home at the old agency on the reserve.

The official Gazette announces that the king has made Baron Byng of Vimy, former governor-general of Canada, a viscount. Viscount Byng received this honor in his 65th year, after an active military career which ended with the close of the war. He was governor-general of Canada from 1921 to 1926.

Air Route Via Yukon

Great Northern Airways Is Predicted By Dr. Thompson

"The Yukon will some day be one of the main air routes of the world, providing an airway between Asia and Europe, if the prediction of Dr. Alfred Thompson, former minister of parliament for the Yukon, comes true. "The airway will be routed through the Northern part of British Columbia or the Yukon to the Aleutian Islands," said Dr. Thompson. "With Siberia in the North and China, Japan and the Philippine Islands to the South, the route will be free from fog, wind or snow. Airships will probably be the main means of travel, and stations will be established in the summer months in the Yukon when the rivers are open."

Future Of The North

The Hudson's Bay Railway is an absolute necessity to the north country, states Senator George Gordon of North Bay. "Even were it not possible to transport grain over the railroad," he said, "it will still be an enormous factor in opening the mining country." He advised young men today to go north, where the future of Canada, to a great extent, lies.

Time was when banks occupied all the best corners in our town and cities, but service stations seem to adorn them now. Perhaps that indicates where the money is going.

Foresees Atlantic Air Service

Dominion Secretary Predicts Edmonton Will Be Northern Depot
The Rt. Hon. L. C. M. S. Amery, British secretary of state for Dominion Affairs, foresees the day when Edmonton will be the northern depot for a great British air line service across the Atlantic, north through the Peace River country and across the Rockies to Vancouver.

"It is not generally realized," he said, "and only the development of an airline across the Atlantic will show it, that Churchill is as near to London as is Montreal; that Edmonton is as near to London as is Toronto, and that practically all of Canada is nearer to London than is New-York."

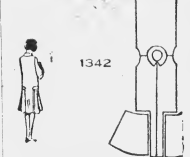

Experimental air line service will be commenced in the summer stated Col. Amery, but it will be three or four years yet before there is a regular air line service across the Atlantic and there is yet to be much ascertained in measuring air distances for such a comparison of distances as the fog, the feasibility of an all year air crossing of the dangerous and forbidding territories of Iceland and Greenland.

Passenger and mail service will first be developed, followed by the carrying of precious cargoes such as gold, gems, and the like on which insurance charges are extremely heavy for each hour of transportation.

One huge ship is being built by the British air ministry for commercial and military tests and another for passenger and criminal work is being built by Col. Bury for a private company.

A CANADIAN RIVER

THAT LOSES ITSELF

Maligne River, In Jasper National Park, Has Interesting Feature

A river that loses itself so completely that its trace of its course can be found for several miles is one of the interesting features of Jasper National Park, Alberta, which, with an area of more than 5,000 square miles, is the largest national playground in the world. The name of this river is the Maligne—French for "bad"—and given to it because where it joins the Athabasca there was a ford which was much feared by the trappers and voyagers of early days in western history.

The Maligne River finds its source in Maligne Lake, about thirty-five miles from its confluence with the Athabasca. Maligne Lake is about fourteen miles long, more than a mile wide and the largest glacial fed body of water in the Canadian Rockies. From this lake the Maligne River flows swiftly down-hill for about fourteen miles to empty into Medicine Lake, a body of water four miles long and from a half to a mile wide. This lake, in some places, reaches a depth of 150 feet.

Out of this lake there is no known outlet. At the foot of it and for a mile or so below there is the dry course of what was once a river. But this bed is dry and there is neither sight nor sound of water in or near it. After about a mile, a trickle of water makes its appearance and within a comparatively short distance a river is once more flowing through the valley.

This is again the Maligne River although from this point to the Athabasca, the volume of water is never as great as that which flows into Medicine Lake. A mile above the Athabasca River, the Maligne hurries itself down into a great canyon, hundreds of feet deep and, in places, less than a yard wide at the top.

London-Dublin Air Service

Would Cut Journey From Ten To Four Hours

An air service between London and Dublin is the object of negotiations now in progress between Imperial Airways, Limited, and the Air Department of the Irish Free State. Passengers would fly from London to Liverpool in air expresses. At Liverpool they would change from land-planes to a 15-passenger flying-boat. The aerial journey should be accomplished in about four hours, compared with ten hours by boat and train.

Some people are proud of their past—probably because it is past.

Receives New Appointment

A. Lettingham who was recently appointed general freight agent of Western Lines of the Canadian Pacific Railway with headquarters at Winnipeg. Mr. Lettingham who, prior to his recent appointment, was city freight agent, joined the services of the Canadian Pacific in 1907, and has been identified with the freight department since that time. His first services were in the freight traffic bureau where he remained until 1911, when he was appointed chief clerk in the office of the assistant freight manager. In 1913 he was appointed contracting freight agent and city freight agent in 1916. His entire services have been with western lines of the company.

International Friendship

Exchange Of Visits Between Canada and United States Creates Good Feeling

"The significance of the many recent exchanges of official and unofficial courtesies between Canada and the U.S. were enlarged on before the Canadian Club, Montreal, by Hon. William Phillips, United States Minister to Canada, referred to the visit of Col. Lunderberg to Ottawa at the time of Canada's diamond jubilee celebration in July, the dedication of the Peace Arch across the Niagara River in August, the erection and unveiling of the monument to United States citizens who fell while serving in the Canadian army during the war, in Arlington Cemetery, the laying of a wreath upon the altar of remembrance at Ottawa by himself, and the visits to Washington of the Governor-General and Lady Willingdon, and Premier King.

Mr. Phillips reminded his audience that these personal visits were to be returned in February by the United States Secretary of State, Hon. Frank B. Kellogg.

Saskatchewan Honey
Saskatchewan honey production has grown from 24,000 pounds in 1922 to 500,974 pounds in 1927, according to a report issued by the field crops branch of the provincial department of agriculture. The 1927 production was made up of 64,942 pounds of comb honey and 64,932 pounds of extracted honey.

SUNDAY SCHOOL LESSON JANUARY 29

THE GROWING FAME OF JESUS

Golden Text: "The common people heard him gladly."—Mark 12:37.
Lesson: Mark 3:7-12; 6:53-66.
Devotional Reading: Isaiah 60:1-5, 8, 9.

Explanations and Comments

I. Why the Crowd Followed Jesus, 3:7-12.—Because of the hostility of Scribes and Pharisees, Jesus withdrew with his disciples to the Sea of Galilee. The opposition of the religious authorities was growing, and at the same time Jesus was becoming increasingly popular with the masses. Great crowds followed Him, for His fame had gone throughout the land. Crowds came from Galilee and from Jerusalem; from Idumea and beyond Jordan; from the region of Tyre and Sidon. One day when the pressure upon Him of the throng was great, Jesus bade his disciples secure a boat in which He could take refuge. It was the time of Jesus as a wonder-worker which drew them. They knew about His wonderful cures and many attested His power. They were before Him, then, those afflicted with unclean spirits. "Thou art the Son of God," He charged them not to make Him known. Popular enthusiasm was dangerous for His cause; it might lead to an outbreak.

"What attracted the crowds? His power to heal? Yes. His sermons that were so easily understood? Yes. But above all it was Himself. It was His personality. It was the Christ that attracted the people. And isn't it true today that Jesus Christ is held up to the people, there we do find the church taking her part in the life of the people."

Find Germ Of "Moon Blindness"

May Be Possible To Produce Serum To Stop Disease

Discovery of the bacteria which is believed to cause "moon blindness" in horses, and which results in the death of many valuable animals, was announced recently by Dr. Edward C. Rosenow, of the Mayo Foundation, Rochester, Minnesota. Speaking before the 29th annual meeting of the Society of American Bacteriologists, Dr. Rosenow declared that through tests and experiments he had found an organism which injected into animals, produced symptoms identical to this disease.

Dr. Rosenow said if further tests corroborated his findings, it should be possible to produce a serum to stop the spread of the disease.

Manitoba Industries
Last year 22 new industries began operations in Winnipeg and district and 21 existing industries in the city and its environs enlarged their plants. It is estimated that the total value of the output of industrial plants in Manitoba in 1927, was about \$170,000,000.

The farthest north police station in the world is on Herschel Island on the Arctic Ocean, a post of the Royal Northwest Mounted Police.

There are men with whom an hour's talk will weaken one more than a day's fasting.

Many a reputation has been gained without merit and many a loss without fault.

LESSON No. 19

Question: Why is emulsified cod-liver oil so wonderful a food-tonic for young girls and women?

Answer: Because it abounds in nourishing factors that are particularly beneficial to people prone to anemia and other conditions due to malnutrition.

Keep your system vitamin-nourished—take

SCOTT'S EMULSION

SAYS TRAINS ARE SAFER THAN AUTOS

Railways Are Not Dangerous Says Railway Official

"The most dangerous part of the machinery of transportation is the man that holds the steering wheel of a motor car," says W. Jones, of Montreal, Assistant to the Director of Safety and First Aid on the Canadian National Railways. Speaking in Winnipeg at the recent presentation of 150 certificates, vouchers, medals and labels, as well as a number of special prizes to Canadian National employees who had won them through proficiency in First Aid work and home nursing, Mr. Jones declared that the system operated a good deal of money and energy in protecting people who neglected to protect themselves.

"Railways are not dangerous," said he. "It was once thought they were, and perhaps this was true, but today there is not a safer association in the world. We are highly organized and ready for any emergency. The danger of accidents comes from the general public, which is not yet educated away from its carelessness and recklessness."

"Among its employees the National system stimulates an interest in First Aid work, and I think I may say our department has succeeded in its efforts when I tell you that the 93,000 on the system more than \$7,000 are ready to give first aid to the injured promptly when the occasion demands it. And every year sees an increase in membership in the Canadian National branch of the St. John Ambulance Association."

"Next to First Aid, and perhaps even before it," said Mr. Jones, "is Safety First. This I call first aid to the unharmed." Some day we shall get the careless motorist to see that it is better to be safe than sorry."

Do Not Eat Turkey

Little Demand In New Zealand For The Poultry

There are about 77,000 turkeys in New Zealand (or were at a recent census) according to a report contained in the National Poultry, Butter and Egg Bulletin. There is little demand for this fowl and this is more than taken care of by the local producers, states Trade Commissioner Julian D. Foster, in a report to the Department of Commerce. New Zealand gobblers generally cost from \$3.50 to \$5.00, according to weight; hens cost about \$2.40 and younger birds from \$1.70 upwards. New Zealanders are surely missing something besides winter at Christmas.

A "dime" was originally a tenth of a man's earnings paid as church dues.

A California hatchery has an output of three million chicks a year.

HEART WAS SO WEAK Had to Stay in Bed

Mrs. F. Wilson, Tethbridge, Alta., writes: "My heart was very weak, and I had to stay in bed for five weeks with it."

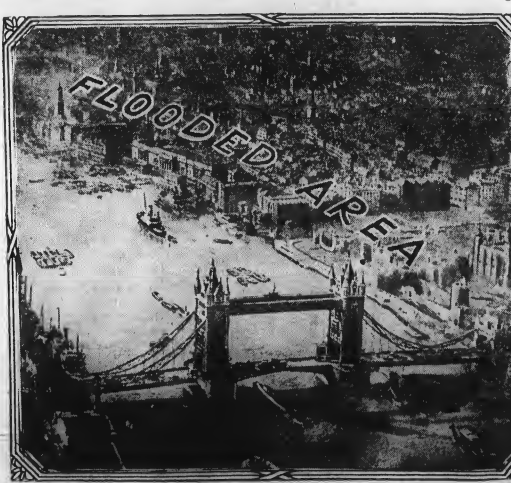

"My aunt advised me to take

as she had taken them with good result after a very bad operation. "I took them and some time after a doctor came to examine me for life insurance and he said there was nothing wrong with my heart."

Milburn's Heart and Nerve Pills are 50c a box at all druggists and dealers, or will be sent direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

View of London District Where Thames Floods Caused Much Suffering

Old London from Canning Town in the east to Hammersmith in the west, for a large distance on both sides of the Thames, was under water when the river overflowed its banks. Intense suffering was entailed in the crowded poorer sections in the east end, while many famous buildings such as the Tower of London and Lambeth Palace were inundated. In the above photo a section of the flooded area is shown. In the foreground is Tower Bridge leading to the Tower of London where soldiers were mustered to guard the crown jewels. Beyond the bend in the river is the Victoria Embankment over which the water poured like a waterfall.

Personal and Local

The L.O.B.A. will hold a sale of work on Saturday, March 31.

Born—To Mr. and Mrs. Geo. A. Brown, Sixth street, Mon., Jan. 23, a daughter.

Mrs. N. D. Smith of Lethbridge was a visitor during the past week at the home of her parents, Mr. and Mrs. Derbyshire.

As a taxpayer you should attend the annual meeting of the school district at 7 o'clock in the council chamber on Friday evening, and the annual ratemakers' meeting at 8 p.m. the same evening.

Following a minor operation, Mr. A. F. Short is back to his duties again in the McGillivray Coal & Coke Co. offices.

Merchants requiring envelopes in quantities can purchase them at wholesale prices through The Journal office.

Contractor D'Appolonia's construction crew are making steady progress on the new bank building, and now that the excavation is entirely protected from the weather, work can be carried on no matter how cold or windy the weather may be. It is hoped to have the building ready for occupancy as soon as spring opens up.

The hockey girls held another of their enjoyable dances on Monday evening, which was attended by quite a large number of their supporters.

A Social evening will be held in the Moose Hall on Monday, February 6th, at 8 p.m. Admission 25c each. Everybody welcome.

The local telephone system is very much like the Toonerville trolley, you can get there quicker by walking than by riding. In the length of time it takes to get answers one could walk there and back and have time to spare.

Mr. Tom Johnson, chairman of the school board, has not been around town very much during the cold weather, having suffered considerably from asthma.

Classified advertisements in The Journal at 10c per line provide an efficient and economical method of advertising articles for sale, houses to rent, etc. Minimum charge 30c.

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do marcelling, etc., in the evenings and on Saturdays by appointment at Mrs. W. G. Fraser's. Phone 295D.

Civic pride and community interest are two important factors in pushing a town to the front. The great drawback is that too many look on their town as just a place to live in, with no further thought or effort along the lines of community enterprise. The towns and cities that progress do so mainly through the individual and collective effort of enterprising citizens.

Mr. David Davidson left on Sunday evening for a visit to Vancouver, he having been indisposed for some weeks past, and it is hoped that the change will benefit his health. His many friends hope to see him return as fit as ever. He was accompanied by his son Blyth and Mr. Alex. Muir. The latter two it is expected will return in a few days.

Judge Thompson at Craybrook stated in giving sentence in a case this week that raffles can be held only for charitable purposes only and then with the consent of the municipality and provided the article to be raffled does not exceed the value of \$50 and is exposed for sale at its face value before the raffle is held.

CLASSIFIED ADVTs.

Advertisements under this heading, such as For Sale, To Rent, Lost, Found, etc., are charged at the rate of 10c per line, counting five words to the line, with a minimum charge of 35c.

MAN WANTED—Internationally known firm has an attractive opening in the Cranbrook district for a real good man to handle their products direct to the consumer. Must have a car. This is an exceptionally fine opportunity to get in business for yourself and make some real money this year. For further information, apply Dept. C, 876 Hornby St., Vancouver, B. C.

HOUSE TO RENT—A 4 roomed cottage in the Michalsky town site, \$5.00 a month. Apply to Joe Michalsky.

PORTABLE TYPEWRITERS—Sold on easy payment plan to suit purchasers. See sample and get prices at Journal Office.

HOLYK'S GROCERY STORE

Business Comes In Proportion to Effort Made to Secure it

Competition for business is very keen and it will always be so. But the energetic merchant who is not content with waiting for whatever business may come his way, but explores every avenue whereby his business may be increased and service to his present customers improved, finds that there is always new business to be secured. He follows the example of his more powerful competitors, and finds that rewards come if he keeps persistently interesting the public in what he has to sell and giving sufficient publicity by means of advertising his service and goods. Steady, unremitting effort counts to a far greater extent than spasmodic bursts of enthusiasm.
